### Company –1

7 Months

Assistant Engineer | Daimond Tools Pvt Ltd.

May-2019-Nov-2019

Hyderabad.

### Company –2

5 Months

Non-voice-process | ECS Pvt Ltd.

Nov-2019-Mar-2020

Bangalore.

## Technical Skills:

Technology	Tools
Java 1.8 or above	Java
Frame Works	Spring, Hibernate
Build Tools	Maven
Web Technologies	Html5, CSS, JavaScript
Database	MySQL, Oracle SQL
Version Controller	Git

## Project:

### Design and fabrication of a Mini-Tractor (Bachelor Thesis Project):

- A mini tractor has the same features like a bigger regular tractor but it is customized in wheel track and base.
- A small tractor is capable of performing all agriculture operations then that a bigger tractor.
- Most of rural young population are moving to city for better opportunities, this is creating a labor shortage of sorts.
- Due to compact size, and construction the small tractor has a short turning ability, which allows the tractor to easily navigate around obstacles without damage.
- The tractor is also light weight; soil is not pressed during any operation. So, it is very useful in sandy soils or for inter-cultivation.
- Land fragmentation with the division of a farmer's family, land holdings became smaller. Farmers with small land holding cannot afford expensive tractor or implement

## Roles and Responsibilities:

- Development of new innovative ME-Systems according to the approved project or development task from management
- Provide leadership, encouragement, mentoring, and coaching to co-workers. Provide direction to other engineers on project teams
- Work as member of product development team to successfully design, test, and launch new products or in modification of existing products
